SUMMARY

I am a Frontend Developer with experience building responsive websites using HTML, CSS, JavaScript, React, and Tailwind CSS. I have worked on real team projects and built applications such as a job board, chat app, e-commerce site, and blog. I am motivated to learn, grow, and create user-friendly web experiences.

WORK EXPERIENCE

Project & Bootcamp Experience(Africa Agility Bootcamp Hackathon, 2024)

- Built a full job board website with 8 responsive pages as part of a cross-functional team.
- Converted UI/UX designs into clean and functional frontend interfaces.
- Collaborated with backend developers using agile scrum workflow.
- Ensured mobile responsiveness and smooth user experience.

MERN Stack (Power Learn Project Bootcamp, 2025)

- Built a real-time chat app using Socket.io.
- Developed an e-commerce website with product listing and cart features.
- Created a blog platform with API integration.
- Improved skills in React, Node.js, Express, and MongoDB
